

Custom Peptide Synthesis

Price List 2006-2007

Our partner company has the most advanced peptide synthesizers to synthesize peptide. Each peptide is provided with reliable HPLC chromatogram and synthesis report, and delivered to customers in lyophilized form. Experienced staff can help you design peptide sequences and provide consultation according to your specific need such as antibody production, special modification, large-scale synthesis and MAP.

Prices are in Rs./- per amino acid residue

- The prices above are only for peptides between 6mer and 30mer. Peptides shorter than 6mer are charged as 6mer peptide. The cost of longer peptides (>6mer and <30mer) may be lower than the above price.
- Large scale, >30mer, unusual, and difficulty peptides are available upon request.
- Turn-around time for crude and desalting peptides is about 2-3 weeks. Analytical HPLC chromatogram and synthesis report are provided free of charge.
- For HPLC purified peptides, turn-around time is about 15 working days. Analytical HPLC chromatogram, MS data and synthesis report are provided free of charge.
- **The above prices include Free Shipping**
